

# BASIC CONSTRUCTION SAFETY TRAINING PROGRAM (Virtual Seminar)

2  
SAFETY STU

▶ UTAP CLAIMABLE

## **BASIC CONSTRUCTION SAFETY TRAINING PROGRAM** **(3<sup>rd</sup> -Run) -Virtual Seminar**

**Date**  
29 Aug 2021

**Course Duration**  
4 Hrs

**Timings**  
9:00AM to 1.15PM

**CPD Points**  
TBC

**Course Fee**  
S\$80/- per person  
**\*UTAP Claimable**

**Contact**

### **Why Choose this Training Course?**

The basic construction safety training program equips delegates with an understanding of several key aspects of working on site, including risk assessments, manual handling, intervention and code of practice. The course is designed for those with supervisory responsibilities and ensures that they meet these so as to ensure a safe site for all staff to work on, whilst meeting relevant legal guidance and to inculcate Workplace Safety and Health (WSH) mindsets in each individual through lectures, case studies and interactive sharing. The module raises awareness of the common hazards present within a construction worksite and introduces measures to mitigate the related risks, enabling them to better protect themselves as well as others while at work. Their appreciation of the risks within a construction worksite will also be enhanced through the use of case studies.

This module will equip the persons with the following WSH knowledge relating to their employment:

1. The WSH Act in the Construction Industry
2. Common Hazards in a Construction Worksite and their Corresponding Risk Controls
3. Lessons Learnt from Past Incidents
4. Ways to Influence and Contribute to Raising the WSH Standard
  - Enhance safety, quality and technical know-how in construction site;
  - Collaboration and coordination strategies
  - Understand crucial issues affecting project and site performance

### **Who is this Training Course for?**

This training course is suitable to a wide range of professionals who are interested in learning about steel design such as:

- Civil Engineers, Design Structural Engineers
- Supervision Engineer, Planners, Steel Fabricator, Construction Engineers, Site Engineers
- RE / RTO / PE
- Welders, Welding Supervisors, QA/QC Professionals and open to all participants.

### **How will this Training Course be Presented?**

This training course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. The sessions will be highly interactive and participative. The presentation will be aided with videos and photos.

### **Topics to be covered**

- Introduction
- Singapore safety statistics
- Legal Requirement
- Hazards related to day to day construction activities
- Permit to work requirements in construction industry
- Risk control methodology

### **Course Instructor Mr. V Thirumurugan**

*Bachelor of Civil Engineering  
Graduate certificate in Safety and Health  
Confined Space Safety Assessor  
ISO 14001 Internal Auditor & ISO 45001 Lead Auditor  
Fire Safety Manager, Confined Space Assessor/OPISC*

*Risk Management; BCSS Tunnelling course  
MOM registered Work place Safety & Health Auditor  
(CIF/A28/73/1726)  
NEA registered Environmental Control Officer (S0799P)  
ACTA Approved Trainer for WDA Courses*
